History of Art and Society

- History, Society and Humanity in Plastic Expression
- Considering the historical significance of works of art from the aspect of creation and reception

Research Project

①

To examine the expression and meaning of works of art, mainly in Japan in the 19th and 20th centuries, with a view to historical backgrounds.

②

To analyze the relationship between art and society, focusing on changes in the social environment surrounding art such as production, distribution, and exhibition in modern times.
